ROUTE II.

SEVENTH STREET: FROM EASTON CEMETERY TO THE NORTHAMPTON COUNTY COURTHOUSE

Cluster B: Northampton Street and Pine Streets

- Dutchtown Park is used by pre-school children as an environmental classroom and play area
- Easton Area Public Library was built with funds from Andrew Carnegie Foundation
- Eighth Street Park continues on both sides of Northampton Street (near the former Cottingham School Building); children use the hill for biking, but a child was recently killed by running into a bus
- The West Ward is pursuing an urban ecology project that includes development of a “green business district” in this area of Northampton Street
- This section of Pine Street, which traverses the West Ward east to west, was known in the early 20th century as “Chinatown” for its opium dens and bawdy houses, serving clients coming from New York by train and helping to give Easton the nickname of the “Little Apple”
