

Tamara Lou Carley

Associate Professor

Lafayette College Department of Geology and Environmental Geosciences
116 Van Wickle Hall, Easton, PA 18042
carlevt@lafayette.edu (610) 330-5199

Last updated 22 June 2023

ACADEMIC BACKGROUND

Vanderbilt University

- Doctor of Philosophy: Environmental Engineering (Envi. Sci Option) Nashville, TN
• Dissertation: The generation and evolution of silicic magma and juvenile crust: Insight from the Icelandic zircon record 2014
• Advisor: Dr. Calvin F. Miller
Master of Science: Earth and Environmental Sciences 2010
• Thesis: Studies of the evolution of felsic magma systems: I. Zircon in historic eruptions, Iceland; II. Modeling magma chamber evolution leading to the Peach Spring Tuff supereruption, AZ, NV, and CA
• Advisors: Dr. Calvin F. Miller, Dr. Guilherme A.R. Gualda

Whitman College

- Bachelor of Arts: Environmental Sciences—Geology Walla Walla, WA
• *Summa cum laude* 2008
• Honors in course of study

University of Otago Semester abroad

New Zealand
2007

PROFESSIONAL APPOINTMENTS

Lafayette College

Department of Geology and Environmental Geosciences Easton, PA
Associate Professor 2021-present
Assistant Professor 2014-2021

American Museum of Natural History Division of Physical Sciences Research Associate

New York City, NY
2016-present

Vanderbilt University

Department of Earth and Environmental Sciences Nashville, TN
Visiting Scholar (pre-tenure research leave) 2017-2018

RESEARCH

Published Articles

*In reverse chronological order, *indicates Lafayette College student*

Lafayette College Academic Research Committee [\$4,000] Competitive internal funding in support of pilot projects: “What lies beneath: A detrital investigation of Iceland’s subglacial magmatic systems”	2017-18
Lafayette College Academic Research Committee [\$3,000] and RK Mellon Grant [\$5,000] Competitive internal funding in support of pilot projects: “Tracing Alaskan tephra of unknown origins back to a source using Hf isotopes in zircon”	2015-16
NSF Graduate Research Fellowship [\$123,000] In support of self-designed research into the origins of Icelandic rhyolites and granites using zircon as an investigative tool	2010-13
GSA Graduate Student Research Grant [\$1,800] Self-designed research of zircon in historic rhyolites of Iceland	2009-10

Unfunded Research Grants

NSF-NERC (funded on resubmission: 2022) “Bubble formation in explosive volcanic eruptions: solving the tiny bubble paradox” <ul style="list-style-type: none"> • USA collaborative team: Dork Sahagian (Lehigh University), Tamara Carley (Lafayette College), Jim Gardner (University of Texas, Austin); • UK collaborative team: Ed Llewellyn, Halim Kusumaatmaja, and Fabian Wadsworth (Durham University). 	2020
NASA Mars Data Analysis Program “Survey of small and mid-size Martian volcanic edifices” <ul style="list-style-type: none"> • PI: Susan Sakimoto (University at Buffalo and Space Science Institute) • Co-Is: Ross Beveridge (Colorado State University), Tamara Carley (Lafayette College), Tracy Gregg (University at Buffalo) 	2020
NSF-MRI (funded on second attempt, 2020) “Acquisition of a Carl Zeiss EVO Scanning Electron Microscope (SEM) at Lafayette College” <ul style="list-style-type: none"> • PI: Jim Dearworth (Lafayette College) • Co-Is: Chris Anderson, Tamara Carley, Laurie Caslake, Chris Hawley (Lafayette College) 	2019
EPA: Safe and Sustainable Water (G2019-P3-Q2) “Producing nutrient-rich compounds from wastewater” <ul style="list-style-type: none"> • PI: Art Kney (Lafayette College) • Co-Is: Tamara Carley, Robert Creighton, Polly Piergiovanni, Jennifer Rao (Lafayette C.) 	2018
National Geographic Polar Research Grant “What lies beneath: A detrital investigation into the volcanic systems under Iceland’s rapidly retreating glacial ice” <ul style="list-style-type: none"> • Co-PIs: Tamara Carley (Lafayette College), Tenley Banik (Illinois State University) 	2017
NSF-EAR: Research Grant (funded on resubmission: 2022) “What lies beneath: A detrital investigation into the volcanic systems under Iceland’s rapidly retreating glacial ice” <ul style="list-style-type: none"> • Co-PIs: Tamara Carley (Lafayette College), Tenley Banik (Illinois State University) 	2016

Conference Presentations

A complete list of abstracts can be found at the end of this document.

Invited Lectures and Seminars (Professional)

UCLA: Investigating proto-continental crust construction using very young (Icelandic) and very old (Hadean) zircon	2021
Syracuse University: Investigating proto-continental crust construction using very young (Icelandic) and very old (Hadean) zircon	2019
Geological Society of Washington: Investigating proto-continental crust construction using very young (Icelandic) and very old (Hadean) zircon	2019
American Museum of Natural History: Investigating proto-continental crust construction using very young (Icelandic) and very old (Hadean) zircon	2018
Memorial University of Newfoundland: Investigating proto-continental crust construction using very young (Icelandic) and very old (Hadean) zircon	2017
Princeton University: What lies beneath: A detrital investigation of Iceland's subglacial volcanoes	2017
Lehigh University: The generation and evolution of silicic magma and juvenile crust: Insights from elemental, isotopic, and geochronological studies of Icelandic zircon	2016
American Museum of Natural History: Generation and evolution of silicic magma and juvenile crust: Insights from elemental, isotopic, and geochronological studies of Icelandic zircon	2016
Columbia University Lamont-Doherty Earth Observatory: Iceland is not a magmatic analog for the Hadean: evidence from the zircon record	2015
Whitman College: The birth of a continent? Investigating Iceland's felsic history with implications for the early Earth	2013

Invited Lectures and Seminars (Lafayette College and Community)

Lafayette College Information Literacy Brown Bag: Information literacy as a framework for designing an upper level Geology course (Geology 321: Geochemistry)	2016
Lafayette College Academic Research Committee (ARC) Works in Progress (WIP): Geologic Sleuthing: Tracing Alaskan ash of unknown origins back to source volcano(es)	2016
Philanthropic Education Organization (P.E.O.), Easton Chapter: Being a woman in science and an early career geologist: My experience as P.E.O. Scholar Award recipient	2016
Whitman College Geology Senior Seminar: From Liberal Arts to Graduate School	2013

New Research Directions

Professional (Lafayette College) 2014-present

- Apatite-based perspectives into Icelandic petrogenesis and pre-eruptive activity;
- Magmatic instability and mechanisms of bubble formation;
- Modeling magma compositions using zircons from the early Earth;
- Calculated relationships between temperature and elemental partitioning in magmas;
- Mineralogical solutions to environmental engineering questions;
- Investigations into Iceland's subglacial magmatic and volcanic systems;
- Petrogenesis and pre-eruptive histories of Pennsylvania's Ordovician bentonites;

- Tracing Alaskan ash of uncertain origins back to volcanoes using isotopes in zircon;
- Establishing new collaborative contacts with:
 - Lehigh University (publications, funded grant, lab user, 2017-present);
 - Rutgers University (lab user: electron microprobe and CL, 2016-present);
 - American Museum of Natural History (Research Associate, 2015-present);
 - Minerals Technologies (thesis students using analytical facilities, 2015-2016);
 - USGS Alaska Volcano Observatory (fieldwork strategizing, 2015-2016).

Prior Research Experience

- Ph.D. Dissertation (Vanderbilt University, Advisor: Calvin Miller):* 2014
- Generation and evolution of silicic magma and juvenile crust: Insight from Icelandic zircon
- Master's Thesis (Vanderbilt University, Advisor: Calvin Miller)* 2010
- Studies of the evolution of felsic magma systems: I. Zircon in historic eruptions, Iceland; II. Modeling magma evolution leading to the Peach Spring Tuff super eruption (AZ, NV, CA)
- Undergraduate Honors Thesis (Whitman College, Advisor: Kirsten Nicolaysen)* 2008
- Mineralogical provenance of Missoula Flood deposits
- NSF Research Experience for Undergraduates (Notre Dame University, Advisor: Susan Sakimoto)* 2006-07
- Interdisciplinary Studies in Tsunami Impact and Mitigation
 - Chemical analysis of minor and reworked paleo-tsunami deposits (2007)
 - The effect of tsunamis on wetlands: monitoring microbial populations (2006)
- Planetary Geology Research Assistant (Notre Dame University; Advisor: Susan Sakimoto)* 2006-07
- Characterizing the morphology of small-scale features of Tharsis Montes, Mars (2007)
 - Remote sensing and ground-truthing in Idaho to better understand Mars (2006)

Fieldwork Highlights

- Professional Fieldwork (Lafayette College)*
- Iceland: Two weeks of fieldwork supporting NSF Award # 2219430 2022
 - Pennsylvania: Several days of bentonite sample collection across the state 2019-21
 - Iceland: Week of fieldwork northwest of Vatnajökull supporting subglacial detrital study 2016
 - Iceland: Several days of fieldwork and sample collection, in conjunction with interim course 2015
 - Alaska: Three weeks of fieldwork, sample collection for pilot investigation 2015
- Graduate Fieldwork (Vanderbilt University)*
- Iceland: Five fieldwork sessions, ~sixteen weeks. Investigation of volcanic, intrusive, and sedimentary (rock and river sand) systems, spanning Iceland's history (~16 Ma to present) 2009-13
 - Peach Spring Tuff, AZ: Five fieldwork sessions totaling ~ seven weeks in the field. Field characterization and sample collection of proximal and distal supervolcano eruption products 2008-11
- Undergraduate Fieldwork (Whitman College and NSF-REU)*
- Walla Walla, WA: mineralogical provenance of Missoula and pre-Missoula Flood deposits (Whitman senior honors thesis) 2007-08
 - Oregon Coast: paleotsunami deposits and modern hazards (NSF-REU) 2006-07
 - Thailand: 2004 tsunami destruction and recovery (NSF-REU)
- Assorted Field Assistance Experiences*
- Chile: investigating volcanic systems and associated ore deposits (Memorial University) 2018
 - Mount Saint Helens: investigation of early eruptive stages and products (Vanderbilt) 2008
 - East Snake River Plain, ID: ground-truthing exercises with implications for Martian geomorphology (2006; Notre Dame and Idaho State Universities) 2006

Professional Development Workshops and Field Trips (Geology)

- IAVCEI Fieldtrip: How to build and destroy a stratovolcano: Mts. Ruapehu and Taranaki (New Zealand) 2023
- Vanderbilt-OFM Research MELTS training workshop 2020-21
- IAVCEI Fourth International Workshop on Volcano Geology (Transylvania, Romania) 2017
- Japan-Kamchatka-Aleutian Subduction Zone Processes (Alaska) 2016
- IAVCEI Third International Workshop on Volcano Geology (Sicily) 2016
- Cordilleran GSA Fieldtrip: Geology of the Chugach-Prince William Sound Accretionary Complex and Resurrection Ophiolite (Alaska) 2015
- Cordilleran GSA Fieldtrip: Cretaceous-Paleogene geology of the Matanuska Valley (Alaska) 2015
- IAVCEI First International Workshop on Volcano Geology (Madeira) 2014
- IAVCEI Fieldtrip: Kikai caldera and southern Kyushu (Japan) 2013
- Southeastern GSA Fieldtrip: Volcanic Evolution of Montserrat (Montserrat) 2013
- FEMA-National Disaster Preparedness Training Center: Volcanic Crises Awareness Training (San Francisco, CA) 2012
- Atlantic Conference on Eyjafjallajökull and Aviation (Iceland) 2010
- Eyjafjallajökull Eruption Workshop and Field Forum (Iceland) 2010
- Penrose Conference: Low δO^{18} signatures, (Idaho Falls, ID, Yellowstone) 2009
- USGS fieldtrip: Caetano Caldera (Battle Mountain, NV) 2009

TEACHING

Courses Taught at Lafayette College

- Geology 100: From fire to ice—Introduction to geology (lecture/lab; Fall: '14-'16, '18-'19; '21)
- Geology 140: A geologic exploration of New Zealand's dynamic landscape (interim abroad 2023)
- Geology 180: Iceland: Geology and natural history of a young island (interim abroad 2015, 2017)
- Geology 200: Earth and planetary materials (lecture/lab; Fall '15-'16; '18-'21)
- Geology 307: Igneous and metamorphic petrology (lecture/lab; Spring '15-17; '19-'21)
- Geology 321: Geochemistry (seminar: Spring 2016; lecture/lab; Spring '19, '21)
- First Year Seminar 98: Misadventure (Fall 2020)
- Interdisciplinary Studies 201: From plate to plate: The geology and agriculture of food in Italy (interim abroad 2022)

Lafayette College Teaching Award

- James P. Crawford Award (2022)

Lafayette College Academic Advising

- Geology Majors (and minors indicated by †):
 - Class of 2025: Madelyn Brennan
 - Class of 2023: Gianna Greger
 - Class of 2022: Caroline DiTrolino, Thomas (Addison) Wand
 - Class of 2021: Gillian Branam, Charlie Brownstein, Maura DiGuglielmo, Katharine Kim
 - Class of 2020: Julia Owens†, Edward Ruger
 - Class of 2019: Andrea Felice
 - Class of 2018: Mary Elizabeth (Lissie) Connors, Wenjing (Tammy) Ma
 - Class of 2017: Costanza Davis, Cullen Scheland
- Pre-Major Advisees:
 - Class of 2025: Elizabeth Flynn^, Phoebe Glass^, Nina Kernan^, Abby Nieporte^, Anna Penman^, Carson Grace Toomer^, Natasha Zorbas^

- Class of 2024: William Bollwerk, Isabella Calle[^], Benjamin Cluver, Charlize Cramer, Grace Gibson[^], Alyssa Vitale[^], Kaitlyn Weston[^]
 - Class of 2023: Evan Flint
 - Class of 2022: Kylie Jurman
 - Class of 2019: Caroline Bottega, Sarah Eddy, Molly Martindale, Lauren Mathisen, Morgan Maves, Kim Schubert, Elana Weinstein
- Volleyball Team Faculty Mentor (Spring 2021-present; players indicated above by [^])

Undergraduate Research Mentor

Honors Thesis Advisor (Lafayette College; primary advisor unless indicated by [^])

- | | |
|---|---------|
| ● Gianna Greger: Insight into source material and tectonomagmatic setting of Ordovician bentonites using zircon geochemistry | 2022-23 |
| ● Katherine Kim: The volatile content in apatite from the 1875 eruption of Askja, Iceland | 2020-21 |
| ● Julisan Street: Geochemistry and mineralogy of the Newcastle Dacite adakites in Jamaica: Jamaican crustal thickness during the Cenozoic as an analogue for Archean crust | 2020-21 |
| ● Isabelle Rein: Apatite geochemistry across the neovolcanic zones of Iceland: Establishing a baseline and searching for spatial significance | 2019-20 |
| ● Leah Shteynman: Utility of zircon-hosted melt inclusions for characterizing Ordovician explosive volcanism | 2019 |

Senior Independent Study Research (Lafayette College)

- | | |
|---|---------|
| ● Edward Ruger: Investigating elevated rare earth elements in Icelandic apatite | 2019-20 |
| ● William DeBarba: Geothermobarometry of glacial sediment, Öräfajökull, Iceland | 2016-17 |

EXCEL Scholars Research Program (Lafayette College)

- | | |
|---|---------|
| ● Mikey Kotler (class of 2025): Bubble nucleation and growth in volcanic systems (Summer EXCEL) | 2023 |
| ● Serafina Rivera (class of 2024): Bubble nucleation and growth in volcanic systems (Summer EXCEL) | 2023 |
| ● Morgan Merritt (class of 2025): What lies beneath: An investigation of subglacial silicic magma systems (Vatnajökull, Iceland) (Fall-Spring EXCEL) | 2022 |
| ● Nicole Szokai (class of 2023): Transitioning Taranaki (New Zealand) to a Volcanic Future (Fall-Spring EXCEL) | 2022 |
| ● Gianna Greger (class of 2023): Mineralogical and chemical characterization of supervolcano deposits in Pennsylvania (Summer-Fall-Spring EXCEL) | 2021-22 |
| ● Aidan Hinchey (class of 2022): Mineralogical and chemical characterization of supervolcano deposits in Pennsylvania (Summer EXCEL), co-mentored by Dave Sunderlin | 2021 |

- Katherine Kim (class of 2021): Mineralogical and chemical characterization of supervolcano deposits in Pennsylvania (Summer-Fall EXCEL) 2019
- Cullen Scheland (class of 2017): Alaskan Ash Beds of Unknown Origin (Spring EXCEL) 2016
- Emma Sosa (class of 2017): Alaskan Ash Beds of Unknown Origin (Summer-Fall EXCEL) 2015
- William DeBarba (class of 2017): Iceland and Continental Nucleation (Summer EXCEL) 2015

Research Group Mentoring (Lafayette College)

- RUMBLE: “Research Unit on Magma, Bedrock, Lava, and Eruptions” (Academic Year) 2016-present
 - A weekly meeting of thesis and independent research students, open to participation by underclassmen interested in future research opportunities
- EnERGY: “Environment, Earth, Research Group, Yay” (Summer) 2015-16
 - A bi-weekly meeting of summer research students (primarily EXCEL) and faculty in Geology, Envi. Engineering, Engineering Studies, Envi. Studies, and Chemistry
- Geology Department student research group (Summer) 2015
 - A bi-weekly meeting of summer research students in Geology

Other Individualized Research Experiences (Lafayette College)

- Geology 351 (Independent Study): Economic Geology, Edward Ruger (class of 2020) 2018
- Digital museum of Van Wickle rock and mineral collections and teaching specimens 2016-17
 - Participation by students wishing to build toward potential research opportunities; scaled to match experience and abilities of students (Fall 2016: Martindale, '19, Owens, '20, Spring 2017: Perrotti '19 and Ma '18, Summer 2017: Golub '19)
- Iceland Interim research sample collection 2015
 - Interested students (Scheland '17, Connors '18) participated in collection of glacial sand for a new research direction, grant proposal, and honors thesis projects
- Civil and Environmental Engineering Research—Analytical Assistance 2016-present
 - Guiding the geological and analytical (XRD, SEM) aspects of CEE research projects conducted by students working with Art Kney (Weyland '16; Ye '17; Furneaux '17; Leeds '19; Hou '20; Orellana '20; Yue '20; Savage '21)
- Post-graduation research opportunities
 - Recent graduate Gianna Greger ('23) worked as a paid research assistant, focused on Icelandic apatite, supported by NSF award #2219430. 2023
 - Recent graduate Leslie Tintle ('16) volunteered as a research assistant, participated in RUMBLE, and conducted a thesis-like project in preparation for graduate school 2016-17

Graduate Student Mentor for Undergraduate Honors Thesis Projects (Vanderbilt University)

- Daniel Birmingham: Magmatic provenance of quartz: CL zoning signatures 2012-13
- Kathleen Russell: Krafla zircon: Generation of silicic magma at an Icelandic volcano 2010-11
- Addy Petrilla: research experience, Icelandic fieldwork (not thesis) 2009

Lafayette College First-Generation Mentoring Program

- Faculty mentor for Lizbeth Arriaga ('21) 2019-2021

Outreach Education

- University School of Nashville: “Meet a Scientist: VOLCANOES!” Show and tell and question and answer session; seventy two 4th graders (via Zoom) 2021
- Southern Environmental Law Center: Led a 6-mile educational nature/geologic hike for lawyers and summer interns (10 people) at Window Cliffs State Natural Area, TN 2017
- Lafayette College (Geology): Participation in hosting students from the Richard R. Green High School of Teaching, NYC (students of Peter Cocheo, Lafayette Class of 1991) 2016

- Vanderbilt Programs for Talented Youth: Developed and taught multiple sessions of a week-long course titled “Geologic detectives: Investigating Volcanoes” for 2nd and 3rd grade 2014
- University School of Nashville: “Meet a Scientist: what does a geologist do?” Question and answer sessions and hands-on activities; ninety 5th graders 2013
- Philanthropic Education Organization: “Volcanic Hazards: Not Science Fiction.” Presentation to a social group dedicated to the education of women; 60 women in attendance 2013
- Oak Hill Elementary School “Introduction to rocks, minerals and volcanoes.” Presentation, hands-on activities; fifteen 5th graders 2010
- Nashville State Community College, Introduction to Geology: “Icelandic volcanoes, living with hazards (four lectures total) 2010-11

Professional Development (Teaching)

- “Establishing and Sustaining an Undergraduate Research Program,” workshop sponsored by the Council on Undergraduate Research, at the American Geophysical Union national meeting 2019
- Teaching with Technology Grant (Lafayette) to build an Augmented Reality Sandbox 2018
- Information Literacy Grant (Lafayette) for the development of Geology 321: Geochemistry 2016
- Digital Humanities Grant (Lafayette) awarded for project “Creation of an interactive digital database of the petrologic teaching collection in Van Wickle Hall” 2015
- “Teaching, Research, and Managing Your Career, Workshop for Early Career Geoscience Faculty” organized by the National Association for Geoscience Teachers; 5-day workshop 2015
- Evidence Based Teaching Practices Fellowship: assisted with Coursera MOOC development for future STEM faculty (Vanderbilt Center for Teaching, Center for the Integration of Research, Teaching and Learning, NSF-WIDER grant) 2014
- Visual Learning: Transforming the Liberal Arts (Carleton College), 2-day workshop 2012
- Inquiry-based and Problem-based Learning in the College Classroom (CIRTL Network: Center for the Integration of Research, Teaching and Learning); semester-long course 2011
- Teaching as Research Fellowship: “Constructing multi-scale, iterative, concept maps for management of geologic subject matter” 2010
- Preparation for Careers in Academia (Vanderbilt); semester-long course 2009

SERVICE

Professional Service (Lafayette College)

Elected Committee Service

- Governance Committee: three years of elected service '20-22, '23-24
- Faculty Academic Policy Committee (FAP): three years of elected service 2015-2019
 - FAP Budget Subcommittee (2016-17)
 - FAP Facilities Committee (2015-16; 2018-19)
 - FAP representative on FCC healthcare committee (2015-2016)
 - Participation on Staffing Advisory (other members recused, 2015)

Leadership Positions in Elected Committee Service

- Governance Committee Chair 2023-24

Appointed Committee Service

- Scholarships and Fellowships Advisory Committee; three years of appointed service 2018-present

Other Service

- Mechanical Engineering search committee (external member) 2021
- Common course of Study review (working group member) 2021

Supporting Environmental Initiatives

- Volunteer judge for the Annual Environmental Poster Session (11th-13th annual) 2014-2016

- Invited Lehigh University sustainability coordinators for Earth Week lecture 2015
- Cross-campus Analytical Education*
- XRD and SEM assistance for Dr. Kney's research students (Weyland '16; Ye '17; Leeds'19; Hou '21; Savage '21) 2016
 - XRD demonstration and analytical session for Chip Nataro's Inorganic Chemistry class (three hour lab section, will teach for the third time this spring) 2015-present
- Professional Service (Lafayette College Department of Geology and Environmental Geosciences)**
- Seminar series (inviting and hosting guest speakers)*
- Jesse Reimink (Penn State University, Cratons and Early Earth) 2023
 - Allie Nagurny (LC '16, University of South Carolina, Metamorphic Rocks) 2023
 - Michael Vandenbergh (Vanderbilt University Law: Private Action and Climate Change) 2020
 - Barbara Dunst (Pennsylvania Council of Professional Geologists: Careers in Geology) 2019
 - Steven Jaret (American Museum of Natural History: Meteorite Impacts) 2019
 - Laramie Jensen (Texas A&M University: Oceanography) 2019
 - Scott Samson (Syracuse University: Geochronology) 2019
 - Adrian Fiege (American Museum of Natural History: Lunar Apatite) 2018
 - Ingrid Ukstins (University of Iowa: Planetary Geology) 2018
 - Ayla Pamukcu (Princeton/Brown: Supervolcanoes) 2016
 - Karen Smit (Gemological Institute of America: Diamonds) 2015
 - Lowell Miyagi (University of Utah: COMPRES visiting lecturer) 2015
 - Richard Ramalho (Lamont-Doherty: Megatsunamis) 2014
- Outreach education and social media engagement*
- Participation in hosting students from the Richard R. Green High School of Teaching, NYC (students of Peter Cocheo, Lafayette Class of 1991) 2016
 - Frequent contributions of photos and status updates to departmental social media 2016-present
- Professional Service (Geologic Community)**
- Co-leader and co-organizer of an international fieldtrip for professional geologists*
- Iceland: The Formation and Evolution of a Young, Dynamic, Volcanic Island 2019
 - Planned and led a ten day fieldtrip around the Iceland for the Northeastern Section of the Geological Society of America, collaborating with Brennan Jordan (University of South Dakota) and Tenley Banik (Illinois State U.)
- Co-convener and chair of sessions at regional meetings of the Geological Society of America*
- North Atlantic arcs, rifts and Plumes: Ordovician to Today (Session T11, Lancaster, PA, Northeastern GSA) 2022
 - The formation and evolution of Iceland: Magmatic, Tectonic, and Geomorphological Processes (Session T1, Portland, ME, Northeastern GSA) 2019
- Co-convener and chair of sessions at national meetings of the American Geophysical Union*
- The Archean: Crustal evolution and planetary habitability (Session V029, San Francisco, CA) 2023
 - Generation and storage of silicic magmas in hydrothermally preconditioned crust (Session V021, Washington, D.C.) 2018
- Invited co-chair for sessions at regional meetings of the Geological Society of America*
- Petrology, Mineralogy & Geochemistry (Session 16, Honolulu, HI, Cordilleran GSA) 2017

<i>Co-convener and chair of sessions at national meetings of the Geological Society of America</i>	
• A matter of perspective: Integrating macro- and micro-scale evidence in investigations of magmatic origins and histories (Session T163, Baltimore)	2015
• Illuminating felsic origins: Using novel multiple-method approaches to investigate the birth of silicic magmas (Session T218, Denver)	2013
<i>Reviewing manuscripts for academic journals</i>	
• Volcanica (x1)	2023
• Nature Geoscience (x1)	2023
• Nature Communications (x1)	2022
• Geology (x2)	2020-23
• Geohealth (x1)	2019
• Proceedings of the National Academy of Sciences (x3)	2017-22
• Lithos (x1)	2018
• Geosphere (x1)	2016
• Contributions to Mineralogy and Petrology (x1)	2015
<i>Reviewing research grant proposals</i>	
• National Science Foundation: Earth Sciences (panel member)	2023
• National Science Foundation: Earth Sciences (EAR Research Grant, x1)	2022
• National Science Foundation: Earth Sciences (Postdoctoral Fellowship, x1)	2017
• Natural Sciences and Engineering Research Council of Canada (Discovery Award, x1)	2017

OTHER CONSIDERATIONS

Professional Memberships

Geological Society of America	2006-present
American Geophysical Union	2009-present
Mineralogical Society of America	2011-present
International Association of Volcanology and Chemistry of the Earth's Interior.	2013-present
National Association of Geoscience Teachers	2015-present

Academic Honors and Awards

Philanthropic Education Organization (P.E.O.) Endowed Scholar Award [\$15,000]	2013-2014
Mensa Foundation Scholarship [\$1,000]	2007-2008
Washington State Legislature: Washington Scholar [\$22,780]	2004-2008
Vanderbilt University	
IBM Graduate Fellowship [\$20,000]	2010-2014
Teaching as Research Fellowship [\$3,000]	2011
Harold Stirling Vanderbilt Graduate Scholarship [\$12,000]	2008-2010
Whitman College	
Dr. Albert Ripley Leeds Prize in Geology	2008
Order of Waiilatpu Honor Society	2007-present
Abshire Research Scholar Award [\$800]	2007-2008
Alexander J. Anderson Scholarship [\$24,000]	2004-2008

Conference Abstracts

*(Reverse chronological order; ^ indicates invited talk, *indicates Lafayette College student)*

1. *Greger, G., Carley, T.L., Garber, J., Sunderlin, D., Hinchey, A., Gold, D. (2023) Tectonomagmatic origin of Ordovician K-Bentonites in central PA based on zircon petrochronology: Geological Society of America Abstracts with Programs, v. 55, no. 5, paper 24-3, oral (Reston, VA) doi: 10.1130/abs/2023SE-386042.

2. ***Merritt, M., Carley, T.L.,** Banik, T.J., Driggs, L. (2023) Initial characterization of silicic nunataks from Þórðarhyrna (Thordarhyrna), Iceland: Geological Society of America Abstracts with Programs, v. 55, no. 5, paper 21-8, poster (Reston, VA) doi: 10.1130/abs/2023SE-386001.
3. Banik, T.J., **Carley, T.L.,** (2023) A zircon-based exposé on rhyolite petrogenesis from the Örafi Volcanic Belt, Iceland: IAVCEI Scientific Assembly (Rotorua, New Zealand).
4. ***Greger, G., Carley, T.L.,** Garber, J.M., Reimink, J., Sunderlin, D., ***Hinchey, A.,** Gold, D. (2022) The Millbrig ash in context of preceding eruptions: preliminary U-Pb and trace-element analysis of zircon in Ordovician Pennsylvania bentonites: Geological Society of America Abstract with Programs, v. 54, no. 3, paper 38-1, poster (Lancaster, PA) doi: 10.1130/abs/2022NE-375293.
5. Essex, C., Banik, T.J., Carley, T.L. (2022) Understanding magma formation at Þingmúli (Thingmuli) Volcano, Iceland based on zircon analyses: Geological Society of America Abstract with Programs, v. 54, no. 3, paper 38-3, poster (Lancaster, PA) doi: 10.1130/abs/2022NE-375213.
6. ***Rein, I.M.T., *Connors, L., *Ruger, E.C.V., Carley, T.L.,** Gross, J., (2020), Apatite as an indicator of pre-eruptive destabilization at Icelandic volcanoes: Geological Society of America Abstracts with Programs (conference virtual due to COVID-19).
7. **Carley, T.L., *Connors, L., *Rein, I.M.T., *Ruger, E.C.V.,** Gross, J., and Burger, P., 2020, Major and trace element geochemistry of Icelandic apatite: A case study at Torfajökull Volcano: VM Goldschmidt Conference Program with Abstracts (Honolulu, HI, withdrew from conference due to COVID-19 complications).
8. ***Rein, I.M.T.,** Connors, L., Ruger, E.C.V., **Carley, T.L.,** Gross, J., 2020, Apatite as an indicator of pre-eruptive destabilization at Icelandic volcanoes: Geological Society of America Abstracts with Programs, v. 52, no. 6, oral (virtual) doi: 10.1130/abs/2020AM-358977.
9. ***Rein, I.M.T., *Connors, L., *Ruger, E.C.V., and Carley, T.L.,** 2020, Apatite geochemistry across the neovolcanic zones of Iceland: Establishing a baseline and searching for spatial significance: Geological Society of America Abstracts with Programs, v. 52, no. 2, paper 7-5, poster. (Reston, VA) doi: 10.1130/abs/2020SE-344922; conference canceled due to COVID-19.
10. ***Ruger, E.C.V., *Rein, I.M.T., *Connors, L., and Carley, T.L.,** 2020, Using Icelandic apatites to investigate elevated contents of rare earth elements within Iceland: Geological Society of America Abstracts with Programs: v. 52, no. 2, paper 11-18, poster. (Reston, VA) doi: 10.1130/abs/2020SE-344930; conference canceled due to COVID-19.
11. ***Shteynman, L., Carley, T.,** and Jaret, S., 2020, Utility of zircon-hosted melt inclusions for characterizing the Millbrig K-bentonite: Geological Society of America Abstracts with Programs, v. 52, no. 2, paper 11-10, poster. (Reston, VA) doi: 10.1130/abs/2020SE-345403; conference canceled due to COVID-19.
12. Xu, Y., Claiborne, L.L., and **Carley, T.L.,** 2020, Investigating the paleotectonic setting of Ordovician K-bentonites in Southeastern US using zircon trace element geochemistry: Geological Society of America Abstracts with Programs, v. 52, no. 2, paper 7-15, poster. (Reston, VA) doi: 10.1130/abs/2020SE-345312; conference canceled due to COVID-19.
13. **^Carley, T.L.,** Bell, E.A., Claiborne, L.L., Miller, C.F., and Harrison, T.M., 2019, Transitions between the Hadean, Archean, and modern world: Zircon Kds clarify formation conditions of Earth's earliest crust: Fall Meeting, American Geophysical Union, V33B-03, oral (San Francisco, CA).
14. Sahagian, D., **Carley, T.L.,** Allabar, A., Gardner, J., Llewellyn, E., Nowak, M., and Wadsworth, F., 2019, The birth of bubbles by spinodal decomposition: Solving the tiny bubble paradox. *Fall Meeting, American Geophysical Union*, V13E-0211, poster (San Francisco, CA), doi: 10.1002/essoar.10501524.1.

15. Banik, T.J., **Carley, T.L.**, Miller, C.F., and Jordan, B.T., 2019, Complicated geodynamic evolution in the northern Westfjords, Iceland elucidated by Iceland's oldest silicic rocks: Geological Society of America Abstracts with Programs, paper 23-4, oral (Portland, ME) ISSN 0016-7592, doi: 10.1130/abs/2019NE-328366.
16. **Carley, T.L.**, Miller, C.F., Padilla, A.J., Banik, T.J., Schmitt, A.K., and Economos, R.C., 2019, Icelandic rhyolite generation influenced by glacial climate in the Late Pleistocene: Evidence from oxygen isotopes and ages in the zircon record: Geological Society of America Abstracts with Programs, paper 23-2, oral (Portland, ME) ISSN 0016-7592, doi: 10.1130/abs/2019NE-328372.
17. ***Connors, M.E.**, **Carley, T.L.**, and Fiege, A., 2019, Compositional evolution of Torfajökull central volcano, Iceland: Perspectives from the apatite record: Geological Society of America Abstracts with Programs, paper 23-6, oral (Portland, ME) ISSN 0016-7592, doi: 10.1130/abs/2019NE-328361.
18. ***Shteynman, L.**, ***Pinke, B.**, ***Ruger, E.C.**, ***Wiley, K.**, **Carley, T.L.**, and Ukstins, I., 2019, XRD analysis of mafic sands from the Icelandic interior: An analogue study for the Bagnold Dune Field of Mars: Geological Society of America Abstracts with Programs, v. 51, no. 1, poster (Portland, ME) doi: 10.1130/abs/2019NE-328469.
19. **Carley, T.L.**, Bell, E.A., Miller, C.F., Claiborne, L.L., and Harrison, T.M., 2018, Striking similarities and subtle differences across the Hadean-Archean boundary: Model melt insight into the Early Earth using new zircon/melt Kds: Fall Meeting, American Geophysical Union, paper V34C-03, oral (Washington, DC) bibcode: 2018AGUFM.V34..03C.
20. ***Connors, M.E.**, Fiege, A., and **Carley, T.L.**, 2018, Apatite as a monitor of volatile and trace element evolution at Torfajökull central volcano, Iceland: Fall Meeting, American Geophysical Union, paper V11F-0075, poster (Washington, DC) bibcode: 2018AGUFM.V11F0075C.
