

LOW RANGE S-BEAM LOAD CELLS WITH 500% OVERLOAD PROTECTION

25 to 750 lb Capacities
11 to 340 kg Capacities

LCCE Series

Standard

- ✓ Protected to 500% Full Scale Overload
- ✓ High Accuracy
- ✓ 5-Point Calibration Included
- ✓ 0.25% Interchangeability for Multiple Load Cell Applications
- ✓ Rugged Stainless Steel Construction on All Ranges

The LCCE S-Beam load cells are designed with mechanical overload protection to 500% of FS in both tension and compression. This unique design gives you an extra level of protection and functionality that is typically an extra cost option on most load cells. When overloaded, the load cell is protected by a unique locking design. When the overload

is removed, the load cell unlocks and returns to normal function. The stainless steel sensing element makes this load cell one of the most durable models available.

SPECIFICATIONS

Excitation: 10 Vdc, 15V maximum
Output: 3 mV/V \pm 0.25% full scale
Calibration: 5 point NIST traceable in tension 0%, 50%, 100%, 50%, 0%
Linearity: \pm 0.03% full scale
Hysteresis: \pm 0.02% full scale
Repeatability: \pm 0.01% full scale
Zero Balance: \pm 1% full scale
Creep in 20 minutes: \pm 0.03% full scale
Operating Temperature: -18 to 65°C (0 to 150°F)

Compensated Temperature: -18 to 65°C (0 to 150°F)

Thermal Effects:
Zero: \pm 0.0027% FS/°C
Span: \pm 0.0014% rdg/°C

Safe Overload: 500% capacity tension and compression

Ultimate Overload: 500% capacity

Bridge Resistance: 350 Ω nominal

Protection Level: IP67

Material: 17-4 PH SS element, aluminum side cover

Electrical Connection: 6 m (20') 4-conductor 24 AWG jacketed cable

LCCE-250 shown actual size.
