- 35 Dam Removal on the Bushkill Creek
 Katie Millar, Emily Moore, Morgan Nobles
- **36** Green Space: The Best Solution to Stormwater Runoff Luke Fonteyne, Kyle Rafferty, Timothy Vangelas
- 37 Drought Mitigation Through Seawater Desalination Robert Ewald, Kevin Mors, Sean Thomas
- **38** Wastewater Recycling: Why Current Processes Surpass Past Methods Ted Granbois, Amanda Grisanti, Eric Herbst
- 39 The Wastewater Infrastructure Crisis in New York City Connar Dehnert, Emily Rabens, Jason Sands
- 40 Pollution of the Amazon due to Mining Activities from an Economic and Policy Standpoint
 Bilal Akbar, Aditya Mehta, Connor Morel
- The Untapped Potential of America's Wastewater Treatment Plants
 Devon Cantrel, Ollie Fosu, Christopher Gallo
- **Desalination as a Viable Water Sourse for Haiti**Wisam Bellan, Mike Donnelly, Chris Ehrhardt
- 43 Gowanus Canal: The Forgotten Superfund Site
 Allan Dalapicola, Olivia Guarna, Jonathan Renzulli

Participating Classes:

CE 321: Environmental Engineering & Science • Professor Kney

CHEM 252: Environmental Chemistry Professor Galloway

ECON 202: Environmental Economics Professor DeVault

EVST 100: Intro to the Environment Professor A. Armstrong

GOVT 231: Global Environmental Politics Professor Fabian

Thank you to our participating judges for your continued support. The success of this event would not be possible without you.

Water Challenges in the 21st Century: Local to Global

13th Annual Multidisciplinary Environmental Poster Session

December 8, 2016 | 7-9 p.m. Farinon College Center (1st and 2nd Floors)

1	Economic Effects of Water Scarcity on California Agriculture Alexandria Coward, Drew Petri, Erik Sink	17 The Three Gorges Dam: A Case Study Kaitlyn Calogero, Jack Lamb, Emily Lynch	
2	Microplastic Pollution: From the Great Lakes' Tributaries to the St. Lawrence Seaway	Acid Rain: How Does it Effect our Environment? Olivia Chassé, Julia Dinella, Aliza Parisella	
3	Justine Perrotti, Lisa Salomon, Caroline Shaffer Lead in Drinking Water: How does Easton, PA compare to Flint, MI in response to lead contamination in drinking water? Jenna Ellis, Ellen Graham, Emily Saba	19 Effects of Anthropocentric Environmental Pressures on the Great Barrier Reef Santbir Chawla, Sean Flanagan, Blake Jenkins	
		20 A Case Study: Effects of the Deepwater Horizon Oil Spill Alexa Overeem, Kara Rosenthal, Brian Ross	
4	Ocean Acidification and the Flooding of Coastal Communities Zachary Coleman, Victoria Hetherington, Tenzin Rinchen	The Adverse Effects of the Changing Chemistry of the Ocean on Calcifying Organisms and How These Changes Impact Humans	
5	The Ecological and Economic Impacts of Red Tide in Southwest Florida Hsuan-yu Chen, Sheng Miao, Lixiang Zhang	Tessa Broholm, Charlotte Choinski, Claire McNulty	
6	The Economics and Politics of Virtual Water Trade: A Comparative Case Study of	The Effects of Further Purification of Drinking Water JoAnna Ast, Hannah Greenhall, Lillie Johnson	
	Brazil and Mexico David Bezer, Benjamin Carroll, Emily LoPiccolo	23 Global Warming Increasing Storm Intensity Will Howes, Matt Marchese, Chris Romano	
7	Dam Denial: Considering Patagonian Dam Proposals as Applied to Outcomes of the Aswan High Dam Lara Henderson, Claire Kellner, Theodore Vuchinich	24 California's Water Crisis Hope Gernert, Mac Jacobs, Leon Shen	
8	What's in Your Water?: A Comprehensive Study of Lafayette College's Drinking Water from Plant to Fountain	25 Flood Preparedness and Prevention, Case Study: Easton, PA Zvikomborero Machikiti, Nouman Naveed, Tomoki Sasaki	
	Thomas Beier, Jonathan Maschio, Brian Pinke	26 Are Gray Water Systems Feasible for Domestic Use? John Blanchard, Anne Marie Mozrall, Andrew Reed	
9	Water Resources: Scarcity and Solutions in the Jordan River Basin Shaneena Alabado, Vanessa Pagano, Rachel Tenney	7 Rising Sea Levels: Impact and Solutions in the Gulf Coast	
10	The Effects of Water Deterioration in Third World Countries Kate Rubin, Charlotte Weseley	Erin Cincotta, Ally Flechsig, Kristen Ingraham 28 Case Studies in Environmental Justice: Violations of the Clean Water Act	
11	Greening Lafayette: The Impact of Reusable Water Bottles on Campus	Casey Banta-Ryan, Grace Housman, Chris Melka Persistent Organic Pollutants in Oceans and their Effects on Humans, Case Stu Alaska	
	Annika Asplund, Haley Mauriello, Danielle Sedillo The Impact of Agriculture on Water Footprint: An Analysis of Lafayette College's		ıdy:
12	LaFarm	Noureen Abdelrahman, Andrew Faett, Will Pfadenhauer	
_	Katie Kidder, Emma Leeds, Amanda Magadan	 Techniques and Viability of Soilless Farming in an Increasingly Urbanized World Kira Botelho, Sam Haines, Faye Melekos Microplastics: Oceanic Damage, Industrial Resistance, and Political Solutions Bianca Buecklers, Brynn Fuller-Becker, Sarah Heins 	1
13	Bleaching Away Beauty: Coral Reefs are Disappearing and the Barren Ocean Floor Remains Kyla Dewey, Jacob Orender, Danielle Ricciardi		
14	Retrofitting Existing Dams to Generate Hydroelectric Power Charles McCooe, Kentaro Mori, Kari Schultheis	32 Seabins: Collecting Plastic Before Problems Izora Bremier, Colin Lenskold, Simon Weissman	
15	The Environmental Health Effects of Residential Swimming Pools Christine Hartl, Lauren Hughes, Aynalem Regassa	33 Ocean Acidification: Its Global Impact on Coral Reef Ecosystems Caroline Bottega, Charlotte Gacek, Elana Weinstein	
16	Analysis of Water Desalination for Agricultural use in California Rojhae Panton, Kate Wickersham, Kayla Zola	34 Is PFOA in Drinking Water Harmful? Gabrielle Lassinger, Rehnuma Nasrin, Morgan O'Connell
